

## > MICROSYS

Microsys is a petrol station in the palm of your hand. With Microsys you can control all the equipment in your petrol station, from tanks to fuel dispensers. Microsys doubles also as POS, accepting all major credit cards with strong anti-fraud protection.

### KEYWORDS:

- » Suitable for petrol stations of any size;
- » Easy to install;
- » Mobility;
- » Integrated with IFSF FCC.

### EQUIPMENT

Linux based handheld terminal.

### SYSTEM

Microsys is an all-in-one solution to manage your petrol station, that can operate standalone or be used in connection with the most common forecourt equipment. With Microsys you can control dispensers, track stocks, perform daily reconciliation, manage users and receive payments. When used in connection with Petrotec Cloud Service you can also integrate several petrol stations in a single dashboard.

### STOCK AND POS

Conceived with small and medium petrol stations in mind, Microsys can manage the most common store inventory - from oil to tires to a small set of services.

### CERTIFIED EMV LEVEL 1 & 2 / PCI 4.0

With the same handheld device, you can also accept all major credit cards.

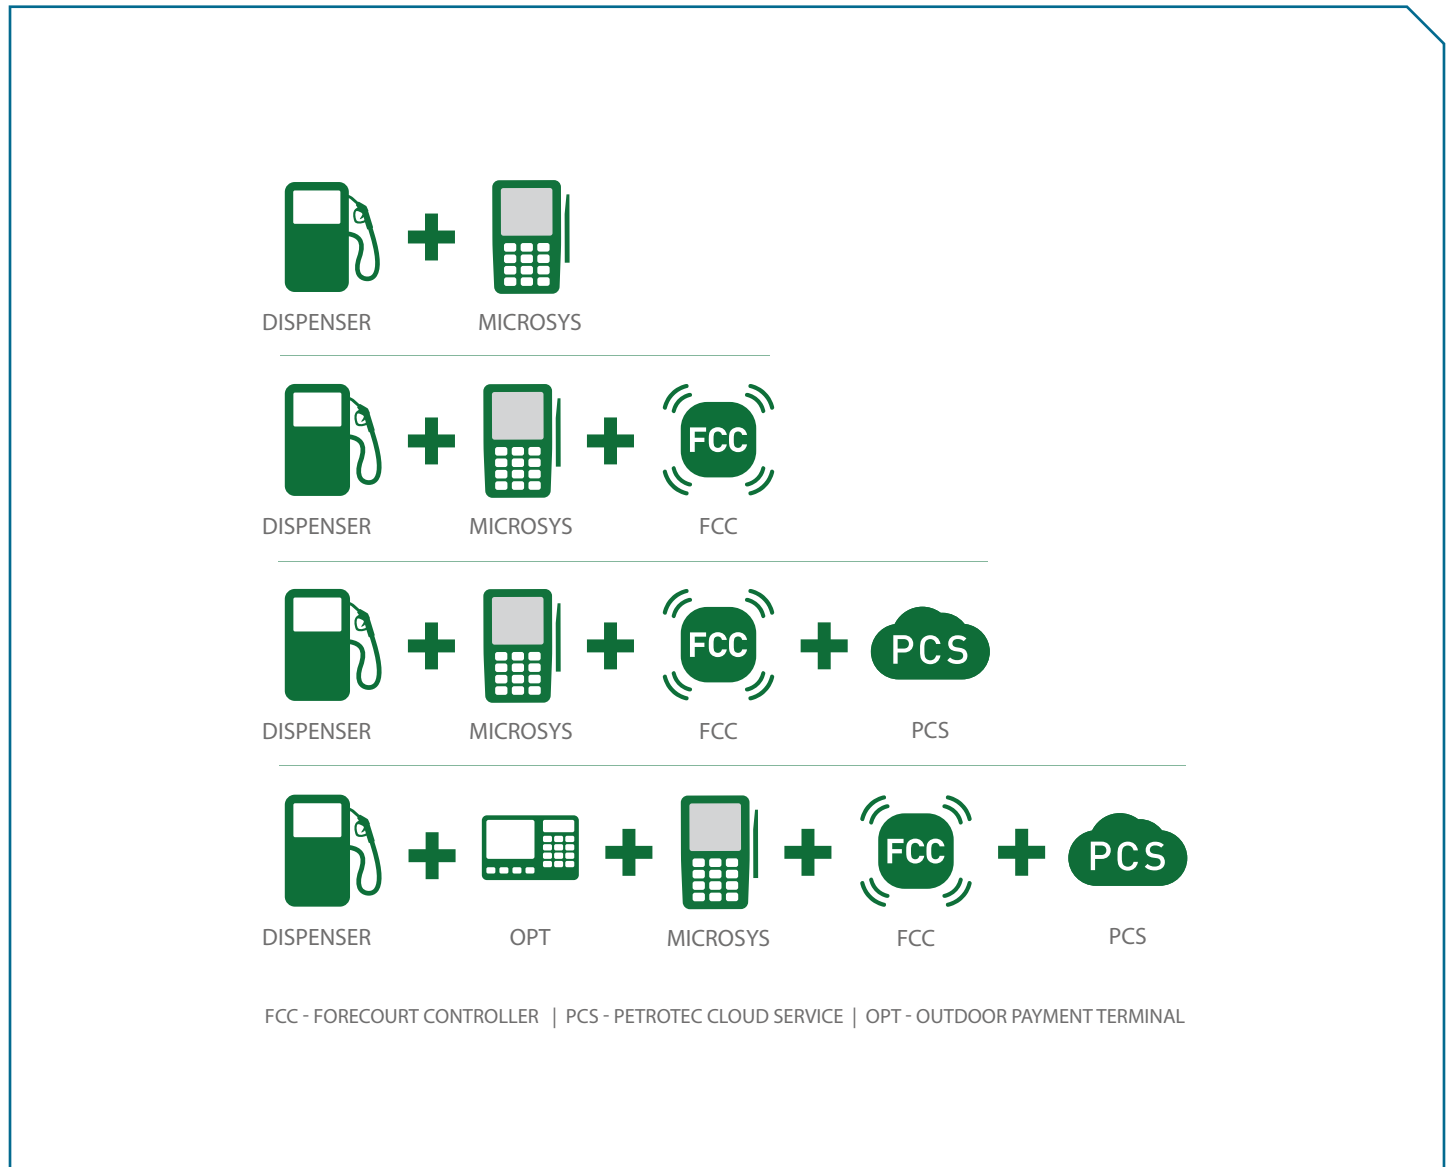

### IFSF

Compatible with multibrand fuel dispensers, Microsys is IFSF certified.
